The Reference Group for Connecting Country is made up of representatives from the member groups and agencies and other interested community members. It has an important role in providing direction for existing and future projects. It also provides an important forum for all groups associated with Connecting Country to come together to discuss their goals/projects/issues, etc. Four quarterly meetings are held each year (always outside of standard business times – with each meeting about 1-2 hours in length). Each group or agency who is a member of Connecting Country is encouraged to have at least representative at each Reference Group meeting.

Please nominate a member of your group to your representative on the Connecting Country Reference Group

Printed Name  
(and group role – e.g. president, member, etc)
